Contents to Volume 360

Volume 360, nos. 1,2

Postnatal development and age-related changes in the distribution of nitric oxide synthase-immunoreactive neurons in the visual system of rats
Y.H. Chung, K.M. Joo, Y.J. Lee, D.H. Shin, C.I. Cha (South Korea) 1

Activation of the dorsal periaqueductal gray in the rat induces Fos-like immunoreactivity in select non-cholinergic mesopontine neurons
L.F. Hayward, M. Castellanos (USA) 5

A urethral afferent mediated excitatory bladder reflex exists in humans
K.J. Gustafson, G.H. Creasey, W.M. Grill (USA) 9

Induction of transcription factor c-myb expression in reactive astrocytes following intracerebroventricular kainic acid injection in mouse hippocampus
G.S. Jeon, D.H. Shin, S.S. Cho (South Korea) 13

Physical activity after retirement enhances vestibulo-ocular reflex in elderly humans
G.C. Gauchard, G. Vançon, A. Gentine, C. Jeandel, P.P. Perrin (France) 17

Huperzine A enhances the level of secretory amyloid precursor protein and protein kinase C-α in intracerebroventricular β-amyloid-(1–40) infused rats and human embryonic kidney 293 Swedish mutant cells
H.Y. Zhang, H. Yan, X.C. Tang (China) 21

No evidence for association of the monocyte chemoattractant protein-1 (−2518) gene polymorphism and Alzheimer's disease
O. Combarros, J. Infante, J. Llorca, J. Berciano (Spain) 25

Superficial dorsal horn neuronal responses and the emergence of behavioural hyperalgesia in a rat model of cancer-induced bone pain
T. Donovan-Rodriguez, A.H. Dickenson, C.E. Urch (UK) 29

Pathogenic human prion protein rescues PrP null phenotype in transgenic mice
E.A. Asante, Y.-G. Li, I. Gowland, J.G.R. Jefferys, J. Collinge (UK) 33

Interleukin-1β injected intracisternally inhibited NMDA-evoked behavioral response in the orofacial area of freely moving rats
H.D. Kim, H.J. Lee, H.S. Choi, J.S. Ju, C.Y. Jung, Y.C. Bae, D.K. Ahn (South Korea) 37

Melatonin-induced inhibition of spinal cord synaptic potentiation in rats is MT_2 receptor-dependent
R. Noseda, A. Hernández, L. Valladares, M. Mondaca, C. Laurido, R. Soto-Moyano (Chile) 41

Stability and phase locking in human soccer juggling
M. Tlili, D. Mottet, M.-A. Dupuy, B. Pavis (France) 45

Immunohistochemical detection of phosphorylated form of extracellular signal-regulated kinase 1/2 in rat vestibular nuclei following hemorrhagic hypotension
M.S. Kim, D.O. Choi, M.A. Choi, J.H. Kim, K.Y. Kim, M.Y. Lee, J.K. Rhee, S.W. Chun, B.R. Park (South Korea) 49

Vesicular glutamate transporter 1 immunoreactivity in motor endplates of striated esophageal but not skeletal muscles in the mouse
T. Kraus, W.L. Neuhuber, M. Raab (Germany) 53

Mechanical and thermal anti-nociception in rats after systemic administration of verapamil
S.M. Todorovic, S. Pathirathna, A. Meyenburg, V. Jevtovic-Todorovic (USA) 57

Formalin-induced spinal cord calcium/calmodulin-dependent protein kinase IIα expression is modulated by heme oxygenase in mice
D.-Y. Liang, X. Li, J.D. Clark (USA) 61

Similarities and differences in the coding of numerical and alphabetical order using acoustic stimulation as revealed by event-related potentials in humans
D. Szűcs, V. Csépe (Hungary, UK) 65

Influence of transcutaneous electrical nerve stimulation on cutaneous silent periods in humans
M. Kofler (Austria) 69

Reduction of withdrawal signs after chronic nicotine exposure of alpha-calcitonin gene-related peptide knock-out mice
A.-M. Salmon, A. Evrard, I. Damaj, J.-P. Changeux (France) 73

Electroencephalographic nogo potentials in a no-movement context: the case of motor imagery in humans

B. Burle, F. Vidal, M. Bonnet (France) 77
A single episode of central glucoprivation reduces the adrenomedullary response to subsequent hypoglycemia in rats
A. Marin-Spiotta, B.E. Levin, N.C. Tkacs (USA) 81
Local peripheral effects of μ-opioid receptor agonists in neuropathic pain in rats
I. Obara, R. Przewlocki, B. Przewlocka (Poland) 85
Cholinergic modulation of L-type calcium current in isolated sensory hair cells of the statocyst of octopus, *Eledone cirrhosa*
A. Chrachri, R. Williamson (UK) 90
Transcranial magnetic stimulation of the posterior parietal cortex delays the latency of both isolated and combined vergence–saccade movements in humans
Z. Kapoula, Q. Yang, O. Coubard, G. Daunys, C. Orssaud (France, Lithuania) 95
Shape perception in human vision: specialized detectors for concentric spatial structures?
I. Kurki, J. Saarinen (Finland) 100
Moderate alcohol consumption in humans impairs feature binding in visual perception but not across perception and action
L.S. Colzato, V. Erasmus, B. Hommel (The Netherlands) 103
Reduced expression of brain-derived neurotrophic factor in mice deficient for pituitary adenylate cyclase activating polypeptide type-I-receptor
M. Zink, C. Otto, B. Zörner, C. Zacher, G. Schütz, F.A. Henn, P. Gass (Germany) 106
No genetic association between Fyn kinase gene polymorphisms (− 93A/G, IVS10+37T/C and Ex12+894T/G) and Japanese sporadic Alzheimer's disease
T. Watanabe, T. Ohnuma, N. Shibata, M. Ohtsuka, A. Ueki, M. Nagao, H. Arai (Japan) 109

Volume 360, no. 3

Estrogen receptors α and β in choroid plexus epithelial cells in Alzheimer's disease
B.C. Hong-Goka, F.-L.F. Chang (USA) 113
Expression of the fibroblast growth factor-2 isoforms and the FGF receptor 1–4 transcripts in the rat model system of Parkinson's disease
P. Claus, S. Werner, M. Timmer, C. Grothe (Germany) 117
How many spinothalamic tract cells are there? A retrograde tracing study in cat
E.M. Klop, L.J. Mouton, G. Holstege (The Netherlands) 121
Less than 15% of the spinothalamic fibers originate from neurons in lamina I in cat
E.M. Klop, L.J. Mouton, G. Holstege (The Netherlands) 125
Involvement of peripherally released substance P and calcitonin gene-related peptide in mediating mechanical hyperalgesia in a traumatic neuropathy model of the rat
J.H. Jang, T.S. Nam, K.S. Paik, J.W. Leem (South Korea) 129
Prolonged waking reduces human immunodeficiency virus glycoprotein 120- or tumor necrosis factor alpha-induced apoptosis in the cerebral cortex of rats
C.J. Montes-Rodríguez, S. Alavez, J.H. Elder, R. Haro, J. Morán, O. Prospéro-García (México, USA) 133
A fronto-parietal network for chewing of gum: a study on human subjects with functional magnetic resonance imaging
T. Takada, T. Miyamoto (Japan) 137
Functional imaging of the human papilla and peripapillary region based on flicker-induced reflectance changes
M. Crittin, C.E. Riva (Switzerland) 141
Quantal size of catecholamine release from rat chromaffin cells is regulated by tonic activity of protein kinase A
T. Koga, M. Takahashi (Japan) 145
Protein kinase A contributes to sciatic ligation-associated early activation of cyclic AMP response element binding protein in the rat spinal dorsal horn
G. Miletic, E.N. Hanson, C.A. Savagian, V. Miletic (USA) 149
Retinal illumination phase shifts the circadian rhythm of serotonin *N*-acetyltransferase activity in the chicken pineal gland
J.B. Zawilska, M.s. Berezińska, A. Lorenc, D.J. Skene, J.Z. Nowak (Poland, UK) 153
Perinatal MK-801 treatment affects age-related changes in locomotor activity from childhood to later adulthood in rats
T. Schiffelholz, D. Hinze-Selch, J.B. Aldenhoff (Germany) 157
Nocturnal urinary dopamine excretion is reduced in otherwise healthy subjects with periodic leg movements in sleep
S. Cohrs, Z. Guan, K. Pohlmann, W. Jordan, J. Pilz, E. Rüther, A. Rodenbeck (Germany) 161
Comparison of brain arginine-vasotocin and corticotrophin-releasing factor for physiological responses in chicks
T. Tachibana, E.-S. Saito, S. Saito, S. Tomonaga, D.M. Denbow, M. Furuse (Japan, USA) 165
The mRNA expression of AMPA type glutamate receptors in the primary motor cortex of patients with amyotrophic lateral sclerosis: an in situ hybridization study
S. Petri, K. Krampfl, F. Hashemi, S. Schmalbach, C. Grothe, A. Hori, R. Dengler, J. Bufler (Germany) 170
Muscle-specific protein MDP77 specifically promotes motor nerve regeneration in rats
S. Itoh, A. Uyeda, Y. Hukuoka, K.E. Fujimori, A. Matsuda, S. Ichinose, H. Kobayashi, K. Shinomiya, J. Tanaka, T. Taguchi (Japan) 175

Comments on the paper "Correlations between brain electrical activities of two spatially separated human subjects", by J. Wackermann, C. Seiter, H. Keibel, H. Walach, Neurosci. Lett., 336 (2003) 60–64
F. Thaheld (USA) 178
Comments on the Letter to the Editor by F. Thaheld
J. Wackermann, H. Walach (Germany) 179
